Plan Costs

This section includes information about your monthly premium, annual deductible (if any), and cost-sharing amounts during the Initial and Catastrophic Coverage Stages for Aetna Medicare Rx offered by SilverScript.

Monthly Premium

Your coverage is provided through a contract with your former employer/union/trust. Your plan benefits administrator will let you know about your plan premium, if any.

Medicare Part D Drug Payment Stages

All Medicare Part D prescription drug plans have drug payment stages where drug costs may vary. You move through each stage based on the amount either you or the plan spend on prescription drugs. See the following section for information on the Medicare Part D drug payment stages. The Part D *Explanation of Benefits (EOB)* and other plan materials include additional information on the three drug payment stages.

Stage 1: Deductible Stage

Because you have no deductible, this payment stage does not apply to you.

Stage 2: Initial Coverage Stage Cost Sharing

During the Initial Coverage Stage, you pay a portion of your drug costs, and the plan pays its portion. The following tables show what you pay until your out-of-pocket covered Part D drug costs reach $2,400. You may get your drugs at network retail pharmacies or through the mail-order pharmacy.

Which drugs are covered?

You may also request a copy of the complete plan formulary by calling Customer Care at 1-855-222-6857, 24 hours a day, 7 days a week. TTY users call 711.

Please note: California Institute of Technology provides additional coverage that may cover prescription drugs not included in your Medicare Part D benefit.

The following categories are included in your Non-Part D Supplemental Benefit:

- Cosmetic
- Cough and Cold
- Fertility
- Erectile Dysfunction
- Vitamins and Minerals
- Weight Loss
- Other miscellaneous non-Part D drugs not otherwise described above

To view the medications in these categories, visit AetnaMedicare.com/SupplementalBenefitPDP.

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include step therapy, prior authorization or quantity limits.

For more information about your share of the cost or which prescription drugs may or may not be covered, please call Customer Care.

How will I determine my drug costs?

Aetna Medicare Rx offered by SilverScript groups each medication into one of three tiers. Use your formulary to find out the tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug's tier, which coverage stage you're in, and what pharmacy you use. As you move from stage to stage, the amount you and the plan pay for your drugs may change. If the actual cost of a drug is less than the normal copayment for that drug, you will pay the actual cost, not the higher copayment or coinsurance.

Which pharmacies can I use?

More than 60,000 pharmacies with over 20,000 preferred pharmacies nationwide make up the pharmacy network. These include retail, mail-order, long-term care and home infusion pharmacies. To find a network pharmacy near your home or where you are traveling in the United States or its territories, call Customer Care, or visit Caremark.com.

You generally must use a network pharmacy in order to receive full benefit coverage on your prescriptions. You may get drugs from an out-of-network pharmacy in an emergency, but you may have to pay the full cost (rather than your normal share of the cost) at the time you fill your prescription. If you use an out-of-network pharmacy in an emergency, we will reimburse you your total cost for a 30-day supply max minus your cost-share amount for the drug. You must submit a paper claim in order to be reimbursed.

Please note: After the mail-order pharmacy receives an order, it typically takes up to 10 days for you to receive your prescription drug. Specialty pharmacies fill high-cost specialty drugs that require special handling. Although specialty pharmacies may deliver covered medicines through the mail, they are not considered "mail-order pharmacies." Therefore, most specialty drugs are not available at the mail-order cost share.
